01 THE BREWERY

A NEW CHAPTER, WITH HISTORY.

Don Valley Brewery started in a small microbrewery in Mexborough, next to the Don navigation. It was too small, and in the wrong spot to grow.

So the brewery moved to Sandtoft and built a purpose-built brewhouse: four conical fermenters, conditioning tanks, a canning machine and bottling kit, with room for over 1,150 hectolitres a year.

The move came with new names. Most of the beers are named after a song, for good music and good times.

Now Don Valley Brewery is relaunching as a standalone brewery, with a German-style beer hall opening at the brewery.
